EXCEPTIONS THE RULE.

SCHEME OF THE DEFENSE IN THE SCOTT JACKSON TRIAL.

Efforts to Carry the Alleged Murderer's Case to the Court of Appeals—A Protracted Argument as to the Admissibility of Testimony to Protract the Hearing.

(By Associated Press Wire)

NEWPORT (Ky.) May 3.—There is a possibility it is not a prospect, that the trial of Scott Jackson will consume all of the coming week. If the defense gets its testimony all in by Tuesday night or Wednesday noon, it will do well. After the defense will come a number of witnesses brought by the prosecution for rebuttal. This will certainly consume one and a half or two days. No one can tell how much time the arguments will consume. The court is disposed to expedite matters as much as is consistent with a fair showing to both sides of the case. How much time the jury will consume is unknown, though it is generally believed it will be short.

During the past week the defense has revealed its purpose to attack the testimony of at least two witnesses, if not three. Allen Johnson, the colored porter at Dave Wallingford's saloon, has been attacked already as to his veracity with no great success. But the defense is evidently not through with him.

As to the evidence of George Jackson, the colored cab-driver, there is a recent report that he has been attacked by some of the defense, and the defense is trying to break down his character.

Several days ago, the defense, when W. H. Wood was on the stand, laid the foundations for the introduction of at least four depositions from reputable citizens in Greencastle, tending to show that he, as well as Jackson, had intimate relations with Pearl Bryant.

In Wood's case, however, the depositions are of the nature of boasts he made in the presence of these deponents.

One manifest hope of the defense is to establish a case of non-jurisdiction, by showing, if possible, that the murder was committed in Cincinnati by overdrawing some treatment with chloroform or other anaesthetic and that the body was afterward taken to Kentucky to avoid recognition. That will be difficult, as the defense expert testimony is that the body emptied of blood, and free from clots, together with the condition of the skin around the cuts and the absence of spots on the surface of the body, shows that the murder must have been committed at the time where the body was found. Falling in this case the jury should agree, the evident intention is to carry the case on error to the Court of Appeals.

All through the trial the defense has taken a multitude of exceptions. Judge Heim, the trial judge, has been cautious and thoughtful in making his decisions. There is a rumor, which has been afloat since yesterday, that the defense intends to spring a surprise on Monday by ringing in a woman from Cincinnati, who will swear that the girl died at her house in Cincinnati. This, however, is still in the shape of a rumor not fully verified. The introduc-

BRAZILIANS IN REVOLT.

THE MONARCHICAL MOVEMENT
TAKES A SERIOUS TURN.

Gen. Thomas Pompey of the Military School of Fort Uxus Invites His Pupils to Join the Movement—Other Complications.

(By Associated Press Wire)

RIO DE JANEIRO, April 9.—(By South American Cable, Associated Press Correspondence.) The monarchial movement in Brazil is beginning to take a very serious turn. Profiting by the general disorders which obtain among the Republicans by reason of foreign and domestic troubles, the monarchists are picking up courage and openly threatening to restore the monarchy. As long ago as November 15 last they made a considerable demonstration at Rio and San Paulo in favor of their cause.

Gen. Thomas Pompey, professor in the military school of Fort Uxus, and for which Crawford paid \$25,000, and for which Crawford paid the fine and the matter has become a part of the court record. Otherwise, it is believed that the fine for contempt would have been imposed by the court.

In the conflict between the attorneys yesterday, in which Col. Crawford announced his determination to hold Col. Nelson personally responsible for remarks which Col. Crawford re-

tained somewhat dubious on admissibility of testimony. However, as already stated, the court, as the case progresses more slowly, grows more exacting as to the useless waste of time in debating points and objecting to evidence on the ground of irrelevance.

In the trial of the colored porter, the commonwealth are confident that they can contradict the depositions of the defense on this point by the testimony of overwhelming numbers of members of the colored race.

In witnessess for rebuttal, the prosecution will depend upon men in Cincinnati who have employed George Jackson, the colored cab-driver, to drive him from the city on Friday, January 31, before the arrival of the guard. That would contradict and overthrow his testimony as to driving the cab with the prisoners and their victims to the scene of the crime on that night.

These depositions have been made at the Caldwell Guards, the colored company, did not drill on that night, but that they did drill on Saturday night, February 1. George Jackson has sworn that night he went out was the night when he was drilling the guards, and he is captain. The prosecution bring in a large number of members of the Caldwell Guards, personally or in depositions, to prove that they did drill on the night of January 31. In this way the defense will be able to contradict the depositions of the commonwealth are confident that they can contradict the depositions of the defense on this point by the testimony of overwhelming numbers of members of the colored race.

The trial is likely to be protracted as to the admission of testimony. However, as already stated, the court, as the case progresses more slowly, grows more exacting as to the useless waste of time in debating points and objecting to evidence on the ground of irrelevance.

In the trial of the colored porter, the com-

munity is to be called to give its opinion on the trial.

Mr. Ade, who acted as Secretary of

State during the progress of the trial,

and was daily in cable connection

with Minister Denby, is also shown as present at the trial.

belonged to the same G. A. R. post of which I am a member since it has been a post about twenty-five years; is a member of several of the fraternities with which I am connected; comes from a family of Methodist stock, and has been a member of the Methodist Church from his youth."

THE SEVENTH DISTRICT DELEGATES.

MODESTO. May 3.—Over half the ninety-six delegates to the Seventh Congress District Republican Convention, which will meet tomorrow morning, arrived today. The committee will nominate a Congressman, one Presidential elector, and an alternate with two delegates to the national convention at St. Louis and alternates. All concede that Bowers will be nominated for Congress without opposition.

(SPORTING RECORD.)
HE WILL TAKE A BATH.

AFTER WHICH CORBETT WILL HUNT UP "LANKY BOB."

Manager McCloskey to be Relieved by the Louisville Baseball Club. Chicago Wins its Third Straight Game.

KANSAS CITY, Mo., May 3.—Yester-
day James Corbett closed his theatrical engagement here yesterday night and left with his wife for Hot Springs, Ark., where he will take a course of baths. From Hot Springs he will proceed to San Francisco to visit his parents. That done, the pugilist says he will turn his attention to Flitzsimmons and endeavor to bring on a mill with the lanky Australian. He promises to follow Flitzsimmons to Europe if necessary, and to put up \$10,000 of his own money that he can whip the Australian in ten rounds.

To a reporter Corbett asserted that his theatrical season, just closed, had been the most successful one financially of his whole career, with the single exception of the season just after he helped Sullivan. He will be in the "Navy Cadet" again next fall.

Mckee Rankin and one or two other members of the company which Corbett and Brady disbanded here last night, announced that they have arranged for tour of the Transvaal and other South African countries in some of the old melodramas in which McKee Rankin became famous.

ESTERN BASEBALL.
Chicago Wins the Third Straight Game—Louisville's Four.

CHICAGO, May 3.—The Orts made their straight today. The betting was about equally divided, but Briggs had the better of it in keeping hits scattered. The attendance was 21,251. Score:

Chicago, 16; hits, 10; errors, 5.
St. Louis, 7; hits, 4; errors, 2.
Batteries—Briggs and Donohue; Hart and Douglas.

CINCINNATI—LOUISVILLE.

LOUISVILLE, May 3.—The Colonels lost another game today through their inability to bat at critical stages and by bad base-running. Fraser pitched good ball, but received poor support. Total attendance, 18,800. Score:

Louisville, 3; hits, 9; errors, 4.
Cincinnati, 5; hits, 8; errors, 1.
Batteries—Fraser and Warner; Dwyer and Vaughn.

McCloskey Turned Down.

LOUISVILLE (Ky.), May 3.—The Directors of the Louisville Baseball Club tonight decided to release Manager McCloskey. The team's poor showing has been attributed to McCloskey's bad management, and a new man will be secured.

FLASHES FROM THE WIRES.

At Burlington, Iowa, J. C. Sommers, a millionaire, banker of Keokuk, who killed a man in the Union Depot. A home cablegram says the Omaha denoted positively a story that negotiations are pending for the session of Kassala to Great Britain.

St. Petersburg, October 1. May 3.—The Philadelphia dispatch says Commander McCurley, U.S.N., captain of the navy-yard at League Island, died at the station of heart-failure yesterday.

A Paris cablegram says the newspapers confirm the rumor that M. Herbert, French Ambassador to Germany, will at once return to Berlin to report his letter of recall.

A Lake Ontario match says that in the bribery case of Martin Hayken, which has been on trial there for the past week, the jury disagreed yesterday and was ordered discharged by the court.

A Buda Pesth cablegram says the ceremonies attendant on the Millennium of the Shah has thrown the Sun into a state of excitement. Foreign telegrams are excluded, and the local papers are forbidden to refer to the subject.

SCOTTISH SULTAN.

LONDON, May 3.—A Constantinople dispatch says the ruler of the Shah has thrown the Sun into a state of excitement. The Emperor and Empress, members of the court, diplomatic corps, and a large number of aristocratic personages attended a solemn thanksgiving service in the Matias Cathedral. The city was brilliantly illuminated last night in celebration of the fest.

A Toronto, Ont., dispatch says Timothy Anglin, ex-member of Parliament and ex-Speaker of the Dominion House of Commons, has died at his residence in the city yesterday.

The French municipal elections passed off quietly yesterday. The new Paris Council will be almost identical with the last one. The returns from the provinces are still incomplete. There were slight disturbances, accompanied by the breaking of the ballot-boxes at Bastille.

A New York dispatch says that Adolph Comins, a traveling salesman employed by M. Cooper, manufacturer of ladies' gowns in that city, has not been heard of since the 28th of February. He and his wife and children at their home in Rosedale, N. Y., on November 26, to go on the road, and wrote regularly to his wife, two or three times a week up to the latter part of February. His last letter was written to the Foster Hotel, Milwaukee, and dated March 20. He disappeared mysteriously from the hotel, leaving his trunks filled with samples and a satchel behind. Mrs. Comins believes he is still alive, but cannot account for his prolonged absence, as he was in no way financially embarrassed.

An Oil Operator's Suicide.

NEW YORK, May 3.—George H. Osborne of Wellsville, N. Y., in Rosedale, O., shot and killed himself at the Hotel Broeck today. Osborne was a traveling man for the firm of Very & Osborne of Wellsville, and also was engaged in the business of oil lands in the vicinity of Bloomsdale. He is supposed to have committed suicide while in a state of insanity caused by business troubles.

A Jealous Stove-dealer.

IRONTON (O.), May 3.—James Beals, a stove dealer, shot and fatally wounded his wife yesterday. The couple had been out walking, and immediately upon their return home he drew a revolver and fired four shots at his wife, three of them taking effect. The dead was accounted by jealousy. Beals escaped, but is closely pursued by officers.

Stabbed by an Unknown.

CHICAGO, May 3.—During a party yesterday Richard Cole, a painter, was stabbed in the abdomen and died a few minutes later. Up to a late hour his assassin was not known, although detectives were working on the case.

Baron Hirsch's Will.

PARIS, May 3.—The Temp says the will of the late Baron Hirsch has been opened. His fortune is estimated at one of the most enormous in Europe, and that has been accomplished on the Niagara River. In his canoe-shaped boat, ten feet in length, he sailed from the milling district through the hydraulic canal out into the rapids of the river, where he took the opportunity to see the country. The trip will require about thirty days, and the interesting points of the Coast are to be seen.

Baron Hirsch's Will.

Whatever may be the cause, it is a fact that in every branch of sport, cycling, boxing, baseball, etc., in Los Angeles, a deadly dullness prevails at this time. While in San Francisco boxing is being given a "boost" by the clubs; in Los Angeles not even an amateur match has been witnessed, or talked of, even, for months past.

In the City State north of California, a baseball league has been formed, and is doing very well, with excellent patronage and good games. In the East, the baseball fever is beginning to get in its work, and every hamlet, in every State, seems to be connected with a league of some sort. But with a good ball park, and an abundance of first-class amateur and professional ballplayers, in Los Angeles, not a game has been played for many moons.

The national circuit of the L.A.W. has been opened in the North, and in the East wheel talk is more common than political "chiming." But with all the facilities for sports and grand racing to be had in Southern California and Los Angeles, it is a matter of something other than congratulation that at the widely-advertised relay race from this city to Riverside, last Monday, no team of racing men from all the clubs in this city was invited to participate, and the race went out of town.

What is to be done, which is perhaps odious, might be extended, but enough is written to show that bromo seltzer or a tonic of some sort might be to the advantage injected into the stomachs of the persons who have been lessened by the time, means and ability to "boom" the sport of boxing, of cycling, baseball, football, and kindred forms of amusement in Southern California and Los Angeles. The enterprising gentlemen of the Los Angeles Athletic Club may have the interests of sport at heart; might, if the correctness of this diagnosis of the local situation be deemed correct, take action of the sort deemed proper, to shift the status of affairs from inactivity to the opposite.

BLOOD WILL TELL'

Value of Thoroughbred Horses for Other Than Racing Purposes.

The difference to a breeder, in breeding trotters or gallopers, is a very great one as a moneyed proposition. It is seldom that a trotting colt can be sold before his three-year-old form, by which time he has probably cost \$100. The Federated cavalry was mounted on Morgan horses from the land and Conestoga from the Mississippi Coast. They never won a battle. But along in 1863 when the national troops began to get hold of thoroughbreds from Virginia, Kentucky and Tennessee, they won more engagements than they lost. Then there were about 150 thoroughbred stallions in all the United States. The United States cavalry will never again be in a condition such as that in 1861. The British army in India receives an average of 1200 Australian horses per month as cavalry remounts, containing from 60 to 75 per cent. of thoroughbred blood. Did they flinch from the cannon's roar, When they burst on the guns of the Muscovite, By the echoing Black Sea's shore?

"Where mortars bellow and round shot whiz, And broadswords are flashing bare, God send me an ending as fair as his Who died in his stirrups there."

WINNING STALLIONS.

Looking over the lists of the stallions enumerated in my last article, I find that out of the 769 whose got won money since 1861, 322 are bred in England, 12 in Australia, 3 in New Zealand, 1 in France, making a total of 171 foreign stallions as against 598 foaled in the United States. The moneys won by the foreigners are apportioned as follows:

England, \$64,297; bred in New Zealand, \$64,225; bred in France, \$35,025; total by imported sires, \$304,576.

This is a very different showing from former years, as will be seen from the appended table:

Total \$554,949 \$544,228 \$569,033

In 1895 five imported sires had to their credit \$504,258, or 52% per cent. of what they won.

The difference between the total amount won by the 769 whose got won money hung up in America in 1895, being \$3,085,533, and we have \$2,280,947 as the winnings of the year by the offspring of 178 native sires. Of these native sires, the sons and male live stallions of stallions imported since 1860. The following table shows the winnings for 1895 credited to the sons and male live stallions of these importations:

"LUCKY" BALDWIN'S HORSES.

When E. J. Baldwin began his breeding operations at Santa Anita, the Glendale, he achieved nothing in particular, and he bought them cheaply, because he got them cheaply. I don't think they cost him over \$4500 landed here. From two of them—Clara D. and Sister Anne—he must have gotten winners of not less than \$80,000. Sister Anne produced a colt, won over \$15,000 at three years old, and, though she could not have earned any valuable sires, and, with six months' extra expense for their keep, they would not have averaged \$400 apiece.

Time was when the thoroughbred horse had no value beyond that of a gambling machine, and this is exemplified by the "logic of events." It has been conclusively proven that horses containing from 35 to 45 per cent. of running blood are the best for long journeys and suffer least from heat. Charles Marley, who was a friend of Baldwin's superintendent during the old war Governor's lifetime, told me his experience in this line: "When I first came here, the Governor gave me the use of a team to drive out for myself. One was by Don Victor, a running horse, own brother of Owen Dale, and the other, a gelding, 'Gambler,' whom he regarded as our next best horse to Old Electioneer. As you know, I am badly afflicted with asthma, and have had to go up to the top of Mt. Hamilton twice a month for relief. That is about forty miles from here, and the fast four or two and a half miles is so hill that it is like an ordinary journey of seventy miles. All the way to the foot of the mountain, the Benton horse would have the forward end of the neck-yoke, while the Don Victor colt would begin drawing him. If I wanted to come home the next day, I had to wait till away in the afternoon on account of the Benton colt. The Don Victor horse was ready to start back as soon as he had eaten his breakfast."

By their sons, grandsons, Leamington, sons, grandsons, £44,639. Australian, 142,445, 126,549. Bonnie Scotland, 134,540. Phaeton, 134,540. Total, 585,500. Mortimer, 61,210. Buckden, 38,870. Prince Charlie, 33,870. Total, 1,705,546, £868,488.

This shows over a million and a quarter won in one year by the male live descendants of eight imported sires in three generations, and of those eight but three have proved themselves to be sires of sires. The daughter of Leamington, while the sons of the others, while the daughters of Australian produced well to every stallion with which they were mated. Hence the apparent disparity between these two great horses in the third generation. But you will say, "The sons of horses foaled take their daughters, and the difference might be nearly equalized." Several of Leamington's heaviest winners were from daughters of Australian, notably Iroquois, who won both the Derby and St. Leger. But Iroquois, though he accomplished only fourteen times in 126 years, Iroquois' total winnings on the turf in England were a trifling in excess of \$60,000. But the above table is enough to show that the popular judgment is not far wrong in thinking Leamington as the most valuable sire ever recorded.

What is true of Australian is also true of Bonnie Scotland. Of the 134,267 credited to his sons, \$46,562 is credited to him, while he was also out of a daughter of Australian. Both Bonnie Scotland mares have produced nobly, and Hanover, the only stallion in America that had over \$100,000 to his credit in 1895, is out of a Bonnie Scotland mare. It therefore goes to show that Leamington was as pronounced a male horse in America as Musket was in

\$364 during the year. The total of the winning to be credited to the whole State, therefore, is \$92,500, and to Southern California \$90,700.

HITALGO.

SWELL SHOOTING CLUB.

Grounds of the San Joaquin Club in Orange County.

With its many attractive features of forest and stream, mountain and meadow, allied with a genial climate that lasts twelve months of the year, Southern California is but little less than a paradise for sportsmen, who find, in its confines, ample opportunity to indulge to the full whatever proclivities they possess for any of the bunched of out-door enjoyment.

In Glencooe, Lexington, Leavenworth and Glenely, on the other hand, have only succeeded through the female channel. Glencooe, who ranks high in the world over, is almost unknown through the male line. He lived to a great age, and got more producing mares than any horse then known, but died out of the saddle and Vandal. Vandal got but one sire, which was Hindoo, and Hindoo has so far gotten but one sire, which is Hanover, who was the premier of 1895.

He, who represents the male line of Stockton, the most masculine line in Europe of thirty years ago, has never gotten a sire. He is now thirty years old and liable to die at any time. He entered the harem at six years old, and for the first three years he could hardly give a swine. Gideon, in his fifth season, headed the list of winning sires, and again two years later. His best son was old Monitor, and his best daughter Firenze, beyond doubt.

FOR CAVALRY PURPOSES.

The value of the thoroughbred horse for cavalry purposes cannot well be overestimated. In the fore part of our civil war the Federal cavalry was mounted on Morgan horses from the Mississippi Coast. They never won a battle. But along in 1863 when the national troops began to get hold of thoroughbreds from Virginia, Kentucky and Tennessee, they won more engagements than they lost. Then there were about 150 thoroughbred stallions in all the United States. The United States cavalry will never again be in a condition such as that in 1861. The British army in India receives an average of 1200 Australian horses per month as cavalry remounts, containing from 60 to 75 per cent. of thoroughbred blood.

Gideon, who is the most masculine line in Europe of thirty years ago, has never gotten a sire. He is now thirty years old and liable to die at any time. He entered the harem at six years old, and for the first three years he could hardly give a swine. Gideon, in his fifth season, headed the list of winning sires, and again two years later. His best son was old Monitor, and his best daughter Firenze, beyond doubt.

Racing Chairman Not Disposed to be Hard on Amateurs.

Chairman George D. Gideon is evidently disposed to put a liberal construction upon all rules governing racing where it seems to be for the best interest of the sport. He was asked recently to give an interpretation of the rule permitting the transfer of riders employed by a cycle houses to the "pro" class, and replied: "You have evidently misunderstood the rule in regard to employees in the trade. The rule says, that 'any employee of a cycle establishment may be transferred to the professional class by vote of the racing board.' This is simply a loophole in the board to transfer a racing man with definite knowledge from his connection with the trade that he was never intended amateurs should have. It is not necessary that every employee of a cycle establishment should be transferred, although, if at any time, the board becomes convinced that a man is not fit for the trade, he may be removed by a large audience. A large number of the ministerial delegates to the conference supplied pupils in Cleveland and surrounding towns this morning and evening."

Sporting Notes.

The Scottish Cyclists' Union has decided to prohibit pace-making in all races except the 50 and 100-mile championships.

Jaap Eden the noted European rider, is now in the New York area, and was annihilated at Brooklyn, New York, where the horses were thoroughbred, none being less than 66 per cent. And how eloquently Adam Lindsay Gordon described them when he wrote:

"Did they quail, those steeds of the West?"

Did they flinch from the cannon's roar, When they burst on the guns of the Muscovite, By the echoing Black Sea's shore?

Where mortars bellow and round shot whiz,

And broadswords are flashing bare,

God send me an ending as fair as his

Who died in his stirrups there."

WINNING STALLIONS.

Looking over the lists of the stallions enumerated in my last article, I find that out of the 769 whose got won money since 1861, 322 are bred in England, 12 in Australia, 3 in New Zealand, 1 in France, making a total of 171 foreign stallions as against 598 foaled in the United States. The moneys won by the foreigners are apportioned as follows:

Total \$554,949 \$544,228 \$569,033

In 1895 five imported sires had to their credit \$504,258, or 52% per cent. of what they won.

The difference between the total amount won by the 769 whose got won money hung up in America in 1895, being \$3,085,533, and we have \$2,280,947 as the winnings of the year by the offspring of 178 native sires. Of these native sires, the sons and male live stallions of stallions imported since 1860. The following table shows the winnings for 1895 credited to the sons and male live stallions of these importations:

"LUCKY" BALDWIN'S HORSES.

When E. J. Baldwin began his breeding operations at Santa Anita, the Glendale, he achieved nothing in particular, and he bought them cheaply, because he got them cheaply. I don't think they cost him over \$4500 landed here. From two of them—Clara D. and Sister Anne—he must have gotten winners of not less than \$80,000. Sister Anne produced a colt, won over \$15,000 at three years old, and, though she could not have earned any valuable sires, and, with six months' extra expense for their keep, they would not have averaged \$400 apiece.

Time was when the thoroughbred horse had no value beyond that of a gambling machine, and this is exemplified by the "logic of events." Richardson, Chicago; C. P. Morehouse, Pasadena; A. H. Sellers, Chicago; S. C. Cristy, Pasadena; E. K. Benchly, Fullerton, Cal.; Andrew McNaull, Chicago.

CALLS HIM DOWN.

Dan Creedon's Sturdy Words to the Everlasting Boxing Champion."

Charley Mitchell, it appears from recent sporting papers from London, is beside himself with envy at the good fortune in English of Dan Creedon, for Dan is now addressed as the "everlasting boxing champion."

Charley Mitchell, who is the most famous boxer in the history of boxing, has combined to produce the environment and game, that go to make ideal sport for the shooter. This fact has impressed itself upon the minds of the spectators, who are visiting Southern California more as visiting tourists than anything else, are carried away with what they see and enjoy in the way of out-door sport.

If Ruffus Faxon, a representative of the Sportsman, Review enjoyed a short time ago, the San Joaquin Shooting Club in Orange County, and

at the head of the second basement, and who for a dozen years has had no superiors, and but one equal.

Says Anson: "The best pitching ever done for the Chicago club was at the time we had only two men and after each other in the box. They expected to do the work, but kept them in good condition. Then, too, they knew how much responsibility rested upon them and they took better care of themselves than they would have had they known that they were expected to do the work, and to keep them in good condition. Of course, if it were possible under present conditions and customary to have the pitchers down to three, I should want none but the best, but every man will be put out of condition by the change of the moon or the breeze of Lake Michigan."

The famous Arthur Zimmerman writes in the New York World: "If your mind becomes fatigued, drink a glass of water. Gargle the throat and rinse for some time, and though he has general made some sort of effort to keep himself in trim, he is not aware that he is not well aware of what has been manipulating Paddy's strings."

A short time ago Creedon is in the hasn't class, to match with whom there would be no honor, turned his attention to the first, and at first refrained from mentioning Mitchel, believing he had retired. Now, however, that he has sought new notoriety in challenging Crockett, I call him to order. If Mitchell wants a match and is really anxious, he can have a pass over to the ring. I will fight him for any sum that he cares to name, at any time under any fair agreement, either in England or America, and if he is not blufing we can make a match in ten minutes. If he is blufing I can demand exception to the terms of his letter, which I consider a retraction on my part."

As Dan really has the inside track in England, through trouncing the Coffe-Cooler and Jim Smith and has come from these wins to be the pet of the British fancy, it looks as though this should have a dampening effect on the everlasting boxing champion."

DR. J. L. STEPHENSON, OWENSBORO, KY.—"In the treatment of lung and bronchial diseases in this climate I find the Liver Regulator is worth its weight in gold. Los Angeles Daily Times

MONDAY MORNING,

CIRCULATION.

Sworn Weekly Statement of the Circulation of the Los Angeles Times.

STATE OF CALIFORNIA, COUNTY OF LOS ANGELES, SS:

Personally appeared before me, H. G. Ois, president and general manager of the Times Mirror Company, a corporation, who deposes and says that the daily circulation records and daily pressroom reports of the office show that the bona fide editions of "The Times" for each day of the week ended May 2, 1926, were as follows:

Sunday..... April 26.....	46,520
Monday..... " 27.....	47,000
Tuesday..... " 28.....	47,820
Wednesday..... " 29.....	48,000
Thursday..... " 30.....	48,000
Friday..... May 1.....	48,000
Total for the week.....	154,070
Daily average for the week.....	22,010

(Signed) H. G. OTIS.
Subscribed and sworn to before me this 2d day of May, 1926.

J. C. OLIVER,
Notary Public in and for Los Angeles County,
State of California.

*Being Fiesta time, the usual average has been largely increased.

NOTE.—THE TIMES is a seven-day paper. The above aggregate, viz., 154,070 copies, issued by us during the seven days of the past week, was the average appearing in the paper of six-day evenings, or give a daily average circulation for each week—25,675 copies.

THE TIMES is the only Los Angeles paper which has regularly published sworn statements of its circulation, both gross and net, weekly, monthly and yearly, during the past several years. Advertisers have the right to know the NET CIRCULATION of the medium which seeks their business, and this THE TIMES gives them correctly, from time to time.

THE TIMES-MIRROR COMPANY.

LINERS.

One cent a word for each insertion.

SPECIAL NOTICES.

REMOVAL NOTICE.—THE CALIFORNIA TRUCK COMPANY HAVE REMOVED TO their office in the Bullard Block, one Main and Court st., 101 Court st., 151 N. Main st.

HAIR-DRESSING, SHAMPOOING AND MANUFACTURING 25c, MISS ATKINSON, 352 S. Spring.

WALL PAPER, WINDOW SHADES, DECORATING, PAINTING, WALTER 303 S. B. Way.

TAKE YOUR STOCK TO BALLOON PASTURE, WILHELM, 828 S. Main.

IRON WORKS—BAKERS IRON WORKS, 360 to 365 BUENA VISTA ST.

WANTED—Help, Male.

HUMMEL BROS. & CO., EMPLOYMENT AGENTS, successors to Petty, Hummel & Co.

California Building, 300-302 W. Second st., in basement. Telephone 200-1.

(Office open from 7 a.m. to 7:30 p.m., except Sunday.)

MEN'S DEPARTMENT.

Fruit ranch hand who can handle four horses, \$30 etc.; assistant engineer, \$45 etc.; boy to wash car on diary, \$3 etc.; stout boy, \$30 etc.; Swede ranch hand, \$20 etc.; We've got many new orders Monday. Call and see us.

HOME DEPARTMENT.

All-round cook, \$30 etc.; colored waiter, Arizona, \$25 etc.; dish washer, city, \$30 etc.; all-round cook, Arizona, \$30 etc.; experienced housekeeper and maid, \$30 etc.; short-order cook, \$12 etc.

HOUSEHOLD DEPARTMENT.

House for the mountains, \$2 months, \$2 etc. month; cook family, 4 etc., \$25 etc.; young girl to assist, \$15 etc.; housegirl, Buena Park, \$20 etc.; housegirl, Redlands, \$20 etc.; housegirl, Santa Barbara, San Bernardino, Santa Ana, Redondo, Newport, Ontario, Lakewood, \$20 etc.; short-order cook, if you want work out of town call and get one of these places.

HOTEL DEPT. (F.M.E.A.).

Waitress, \$20 etc.; waitress, chambermaids, laundresses etc., call Monday.

WANTED—WE MUST HAVE HELP.

For men and women \$10 to \$15 per week for easy home work; no books or padding; steady employment guaranteed; write for full information, once. HERMAN & SEYMORE, 215 S. Sixth street, Philadelphia, Pa.

WANTED—SALESMEN'S BOOK-KEEPING.

Stamps, etc., do not pay attention to us, and possess good references, leave your names with PACIFIC COAST MERCANTILE EXCHANGE, room 416, Wilshire Blvd.

WANTED—YOUNG MAN, 18 TO 20 YEARS

of age, one who has had some experience in the dry goods business and residing with our board, day, week or month. See CHAPMAN, 100-102 W. Broadway, for special rates the next few months.

WANTED—COLLECTOR WHO HAS HAD 4 OR 5 YEARS' EXPERIENCE IN THE CITY; GOOD ADVICE.

U. S. INDUSTRIAL AGENCY, 201 Clinton Blvd.

THE 40-PAGE FIESTA "TIMES."

Do you wish to set the whole
splendid story of La Fiesta de Los
Angeles told in a single issue? If
so, you can secure it in connected
narrative form, skillfully divided,
subdivided, classified, revised,
arranged and illustrated, in the spe-
cial FIESTA NUMBER, issued April
26, 1896, which contains a series of
surpassing descriptions of one of
the grandest events in the notable
history of California's most notable
and interesting city. In no other
way can you delight your friends
abroad so much, at such slight
trouble and expense, as by sending
them a copy. Size, 40 pages and
cover. Postage 3 cents per copy.

plication.

ADULTERATED FOODS.

The Board of Health in San Fran-
cisco is undertaking an important in-
vestigation, having for its object to as-
certain the purity or otherwise of food
supplies manufactured and sold in that
city.

The health officers have been moving
quietly in this matter for several weeks. Samples of preserved food have
been obtained from the principal man-
ufacturers and dealers and the same
submitted to the chemist of the depart-
ment for analysis. Other samples will
be purchased and prosecutions will not
begin until the health officers have ob-
tained sufficient testimony to make a
conviction comparatively easy.

The San Francisco Chronicle has the
following in regard to the wide extent
of the practice of adulterating foods:

"Investigation has shown that a large
proportion of the cheap tea now being
sold in the city is adulterated to such
an extent that it is injurious to health.
In most cases it has been colored with
Prussian blue or copperas, and as the
latter is poisonous its continued use is
calculated to cause the most serious re-
sults. The same treatment is given to
much of the green coffee that comes
from Brazil and Costa Rica, copperas
being used to give it a fresh appear-
ance. The dealers allege that the cop-
peras is destroyed when the coffee is
roasted, but chemists believe other-
wise."

It is known that much of the cheap
jellies and jams being sold are largely
adulterated, fruit being the least used.
Raspberry jelly, for instance, as sam-
ples obtained show, is a mixture of glu-
cose or gelatine with a small amount of
raspberry syrup and coloring matter.
The paper spread upon the top of the
mixture is saturated with a preserva-
tive preparation to prevent spoiling.
While this mixture sold as jelly may not
be injurious to health, it is adulterated,
and its sale is prohibited by the law,
which the Board of Health proposes to
enforce.

"High-priced jellies which have
spoiled, it is claimed, are returned to
the factories and worked over into jams
or the cheap jellies.

"An analysis of some of the chocolate
sold shows that, although repre-
sented as the pure article, very little
cocoa is found in it. It is made largely
of flour, mixed with ground cocoanut
shells, a little cocoa and coloring
matter."

"The gum drops that are being ped-
dled about the streets and sold to
children in many cases are made of
glucose and coated with sugar. The
material used in their manufacture is
harmless, but in many cases they are
prepared in filthy places. Recently the
Board of Health condemned one of the
places on Minna street."

"Baking powders, ground spices,
canned goods, including fruits and
meats, lobsters and oysters, are under
suspicion. One or two brands of oysters
are known to be injurious, and re-
cently several grocers have been sued
for damages for sickness caused by eat-
ing oysters which were made injurious
by the use of some preservative."

"Extracts of various kinds are greatly
adulterated, and some of the cheap
pineapple extract is so full of alcohol
to give it strength that it burns readily
when brought in contact with a lighted
match. Some of the brands of con-
centrated milk will also be analyzed by
Chemist Wenzel, and if preservative has
been used their sale will be pro-
hibited."

"The preservative that is being used in
preserving nearly all kinds of milk and
fruit preparations has been analyzed by
Chemist Wenzel, and, in his official report
submitted to the Board of Health yesterday, he says its use is in-
jurious to health."

"The subject is a most important one
affecting as it does the health of the
entire population. It is impossible to
estimate the injury that is done by
adulterating foods, or the number of

the people of Los Angeles will be a
warning to future City Councils that
there is a limit beyond which the for-
bearance of citizens must not be
pushed. As a rule the voters are very
lenient with erring officials, but in this
case the members of the City Council
and the Mayor have gone a little too
far, and have written their own politi-
cal epitaphs."

The electrifying of the Main-street
railway, now said to be a certainty,
will leave only two or three unimportant
horse railways in Los Angeles, where horses and mules were the only
motive power utilized for such purposes
as recently as a dozen years ago.

Even those who previously favored
the so-called "double harbor" appropria-
tion now hesitate when they note the
depths of duplicity to which Huntington's
agents have descended.

Our expositions are juvenile affairs,
as far as the events they celebrate, in
comparison with the Hungarian mil-
lennium exposition, which opened on
Saturday.

If the report of a big strike on a lode
parallel to the Comstock is well-
founded Virginia City may yet see a
return of its former prosperity.

HOME PRODUCTS CLUBS.

An excellent plan to further the pros-
perity of the state has been hit upon
by the Manufacturers' and Producers'
Association of San Francisco, which is
endeavoring to secure the organization
in interior towns of "Home Products
Clubs." The following are extracts
from the proposed constitution:

Article I. This organization shall be
known as the Manufacturers' and Pro-
ducers' Association Home Product Club
No. _____. Cal.

Art. II. The object of this club shall
be to work in conjunction with the
Manufacturers' and Producers' Association
of California to encourage the
manufacture and production as well
as the distribution and consumption of
California products; to aid the association
in the collection of statistics of
the manufacturers and products, and to
investigate and report upon the unde-
veloped resources of the city of Oak-
land.

Art. III. Section 1. Any person, male
or female, over 15 years of age may be-
come a member of this club by sub-
scribing in triplicate to the follow-
ing pledge:

"I hereby pledge myself, price and
quality, preference, to give the prefer-
ence to articles of California manufac-
ture or production in everything that I
purchase or use, and will endeavor to
induce others to do likewise, and thus
assist home industry."

When the new administration is in
power there will be plenty of money to
build warships with.

The Cecil Rhodes affair, in South
Africa, appears to be another case of
"a woman in it."

It looks now as if nothing short of a
miracle could prevent the nomination of
McKinley.

AT THE PLAYHOUSES.

OPHEUM. The Hopkins Trans-
oceanic Star Specialty Company will
open at the Orpheum tonight. A big
feature of the bill is the Rossow Bros.,
the German midgets, who do a very
funny boxing and wrestling bout.

Other features include: Apollo, the
tree-walker; Tom Mack, negro min-
strel; the Evans, comedians; Clayton,
Jenkins, Jasper, in the Darktown
circuit; Horace, in the Darktown
Baron; Ford, the English baritone;
Robert Fulgora, transfigurator;
Sharp and Platt, Musical comedians;
and Nameda Bros., grotesque acrobats.

LOS ANGELES THEATER. Rich-
ard Mandell and company will open
on Thursday evening in "Bear Brum-
pum," presenting Friday evening, "A
Parisian Romance," and Saturday even-
ing, "Prince Karl."

BURBANK. This week the Davis-
Moulton Musical Comedy Company will
delight the crowds at the Burbank.
The company is headed by the dainty
singing comedienne, Miss Myra Davis,
the singing character comedian, Arthur E. Moulton, supported by a
selected company of metropolitan artists,
presenting for the first time on the
Pacific Coast the laughing success en-
itled "Nlobe."

The recording secretary shall trans-
mit at least once each month a report
of the work of the club to the secre-
tary of the Manufacturers' and Pro-
ducers' Association of California.

Section 2. At the first regular meet-
ing of the members of the club held
in the months of January, April, July
and October, the members are to be re-
quested to report how largely they
have used home products and where
they had been obliged to use imported
articles give reasons for so doing, in
order that the matter be inquired into
by a committee appointed by the pres-
ident for that purpose.

The bylaws are the following pro-
visions:

The recording secretary shall trans-
mit at least once each month a report
of the work of the club to the secre-
tary of the Manufacturers' and Pro-
ducers' Association of California.

Section 3. At the first regular meet-
ing of the members of the club held
in the months of January, April, July
and October, the members are to be re-
quested to report how largely they
have used home products and where
they had been obliged to use imported
articles give reasons for so doing, in
order that the matter be inquired into
by a committee appointed by the pres-
ident for that purpose.

The recording secretary shall trans-
mit at least once each month a report
of the work of the club to the secre-
tary of the Manufacturers' and Pro-
ducers' Association of California.

Section 4. At the first regular meet-
ing of the members of the club held
in the months of January, April, July
and October, the members are to be re-
quested to report how largely they
have used home products and where
they had been obliged to use imported
articles give reasons for so doing, in
order that the matter be inquired into
by a committee appointed by the pres-
ident for that purpose.

The recording secretary shall trans-
mit at least once each month a report
of the work of the club to the secre-
tary of the Manufacturers' and Pro-
ducers' Association of California.

Section 5. At the first regular meet-
ing of the members of the club held
in the months of January, April, July
and October, the members are to be re-
quested to report how largely they
have used home products and where
they had been obliged to use imported
articles give reasons for so doing, in
order that the matter be inquired into
by a committee appointed by the pres-
ident for that purpose.

The recording secretary shall trans-
mit at least once each month a report
of the work of the club to the secre-
tary of the Manufacturers' and Pro-
ducers' Association of California.

Section 6. At the first regular meet-
ing of the members of the club held
in the months of January, April, July
and October, the members are to be re-
quested to report how largely they
have used home products and where
they had been obliged to use imported
articles give reasons for so doing, in
order that the matter be inquired into
by a committee appointed by the pres-
ident for that purpose.

The recording secretary shall trans-
mit at least once each month a report
of the work of the club to the secre-
tary of the Manufacturers' and Pro-
ducers' Association of California.

Section 7. At the first regular meet-
ing of the members of the club held
in the months of January, April, July
and October, the members are to be re-
quested to report how largely they
have used home products and where
they had been obliged to use imported
articles give reasons for so doing, in
order that the matter be inquired into
by a committee appointed by the pres-
ident for that purpose.

The recording secretary shall trans-
mit at least once each month a report
of the work of the club to the secre-
tary of the Manufacturers' and Pro-
ducers' Association of California.

Section 8. At the first regular meet-
ing of the members of the club held
in the months of January, April, July
and October, the members are to be re-
quested to report how largely they
have used home products and where
they had been obliged to use imported
articles give reasons for so doing, in
order that the matter be inquired into
by a committee appointed by the pres-
ident for that purpose.

The recording secretary shall trans-
mit at least once each month a report
of the work of the club to the secre-
tary of the Manufacturers' and Pro-
ducers' Association of California.

mit at least once each month a report
of the work of the club to the secre-
tary of the Manufacturers' and Pro-
ducers' Association of California.

Section 13. At the first regular meet-
ing of the members of the club held
in the months of January, April, July
and October, the members are to be re-
quested to report how largely they
have used home products and where
they had been obliged to use imported
articles give reasons for so doing, in
order that the matter be inquired into
by a committee appointed by the pres-
ident for that purpose.

The recording secretary shall trans-
mit at least once each month a report
of the work of the club to the secre-
tary of the Manufacturers' and Pro-
ducers' Association of California.

Section 14. At the first regular meet-
ing of the members of the club held
in the months of January, April, July
and October, the members are to be re-
quested to report how largely they
have used home products and where
they had been obliged to use imported
articles give reasons for so doing, in
order that the matter be inquired into
by a committee appointed by the pres-<br

THE WEATHER.

U. S. WEATHER BUREAU, Los Angeles, May 3.—At 5 o'clock a.m. the barometer registered 30.38; at 5 p.m., 30.32. Thermometer for the corresponding hours showed 47 deg. and 64 deg. Average temperature, 5 a.m., 58; 5 p.m., 68. Wind, calm; 5 p.m., southwest, 60 miles. Maximum temperature, 65 deg. Change of weather, 5 a.m., clear; 5 p.m., clear.

The Games

ALL ALONG THE LINE.

The question of keeping the weeds from growing in the gutters and on the sidewalks is being agitated in Pasadena. There is talk of giving the Street Superintendent power to compel property-owners to keep the jungle down.

Hog cholera is making serious inroads in the swine interests of Arizona. The Sanitary Commission and health officials are demoralized, and removals are being made from these important departments. There will continue to be more or less unrest and inefficiency so long as the present form of government continues. With statehood will come an improved condition in public affairs.

The School Board did a wise thing when it added a commercial course to the High School, and that the innovation met with popular approval is proven by the large number of pupils who have entered the department. But the work is hampered by lack of apparatus. There is no room fitted up as a bank or counting-house, no high stools, no gratings, not even a type-writer.

The Pasadena Salvation Army feels greatly aggrieved because it is not allowed to parade the streets with the sound of fife and drum, bugle and cornet, without obtaining a permit for each occasion. This permit was refused for last Saturday evening, so forthwith the army, the doughty captain at its head, blowing a tin horn with all his might. The officer was promptly arrested for disturbing the peace.

The continued improvement in local oil market is gratifying. Adoption of business methods by the Oil Exchange has resulted in advancing prices to a point where reasonable returns may be expected from investments. The revenue saved to this city from this source is very large, and the cheapness of the fuel has enabled struggling enterprises to tide over hard places under depressed national and local conditions.

An excellent example of the way in which the public money is wasted by useless pottering at the streets is to be seen on Seventh street, west of Pearl. There is much traffic on this street, and the road is in consequence a bad succession of chuck holes. Several days ago a man was sent out with a wagon load of gravel. He dumped a little loose gravel in the holes. Then came the heavy wagon and ground down into the loose dirt, not yet packed. Already the chuck-holes are as deep as ever, and the ridges between them a little higher.

In preparation for the great influx of strangers during the National Republican Convention, St. Louis is doing everything in her power to forestall all their needs. One idea which is worthy of imitation is that new sign-posts are to be placed on every corner, bearing the name of the street in large, distinct letters. Every one who has tried to find a house on Hyans street, Melvin street, or some other obscure little road tucked away in a corner of the city, and found no trace of a street sign but the stump of a long-decayed post, will join in a wish Los Angeles might have a few thousand new sign posts.

The wool-growers of Arizona are thoroughly disengaged over the depressed condition of the market, and are anxious for a change in the administration of national affairs. The sentiment in that Territory favors Maj. McKinley for President, and Republicans have gone so far as to instruct their delegates to use every legitimate influence to bring about this result. Under the McKinley bill wool sold readily in the markets at from 15 to 20 cents a pound. Since the change in administration and tariff legislation, the sheep industry has been utterly demoralized, the wool clip selling at from 4 to 6 cents per pound. Arizona is but a little garden spot of the industrial country that demands a return to a protective tariff, with the father of the measure to lead it into channels of prosperity.

HIS RELATIVES HEARD FROM.

The Victim of Insanity Will Be Buried Here.

William Kellen, the man who died in a state of insanity at the County Jail Saturday night, will be buried here in Los Angeles. Sheriff Burr yesterday received a response to the telegram he sent Saturday night to Joseph Kellen, a brother of the unfortunate man. The reply says: "bury William Kellen there. Some of us will be down later. Impossible now. Write us particulars tonight."

Mr. Burr yesterday paid a call on Dr. J. W. Goings, who had attended Kellen for several weeks before he went insane. The physician said Kellen had been in Los Angeles for six weeks. He was almost out of money and in the last stages of a terrible disease, whose culmination was insanity, the first symptoms of dementia becoming apparent about ten days ago. The physician found upon examination he was to be worthless, but from various reasons it is believed Kellen possessed considerable property. Sheriff Burr has wired for instructions as to how the body shall be buried.

Honesty Rewarded.

Saturday Thomas Jones found a pocketbook containing \$5 lying on the sidewalk in front of the Police Station. The honest lad turned it over to the police, and yesterday the owner called for it and identified his property. He left a dollar as a reward for Thomas Jones, if he can be found again.

Take rational care of your cold at once, by using Dr. D. Jaynes' expectorant, and you will save much worry, and render less likely the development of a dangerous throat or lung disease.

REFRIGERATORS.

The "Alaska" not only saves ice, but preserves. The most perfect and complete line ever put on the market to be seen at Case & Smart's Store Co., Nos. 314 and 316 South Spring street.

"BROWN'S Bronchial Trophee" will quickly relieve bronchitis, asthma, catarrh and throat disease. Sold only in boxes.

what faster than under the old schedule.

A UTAH ROAD.

SALT LAKE (Utah) May 3.—Contracts were let yesterday for 30,000 ties and for grading on the first section of the railroad from this city in the direction of Deep Creek. Active work will begin on Monday.

RAILROAD MAN DEAD.

E. C. Bradford of Denver, Colo. died Saturday evening at his rooms at the Rush, on Bunkerhill avenue between First and Second streets. Mr. Bradford had been in the city but a few weeks, having come to the Coast for his health. He was a veteran railroad man and for more than thirty years had handled a throttle for the Union Pacific. For more than twenty-five years he had been in charge of a locomotive on the same run between Denver and Cheyenne. Constant employment and an altitude of 8,000 feet upward had told on his naturally strong constitution, and he had obtained a leave of absence hoping to improve his condition by coming to the coast. On the 28th of the past month he had been taken ill with heart failure, which led to his death. His wife came with him on his trip to the Coast. She is a sister of W. H. Cody of North Platte, Neb., who is known throughout the West as "Buffalo Bill." A son of the deceased, who had been traveling with Mr. Cody in Ohio, was on the way to his father's bedside, but had only reached Denver at the time of his death. Mr. Bradford had a son, Mrs. Knight, and a daughter, Mrs. Baumann, of Division, No. 5, Brotherhood of Locomotive Engineers and auxiliary sisters. The remains will be embalmed and shipped to Denver for interment.

"The principal mine-owners in that section take kindly to the idea, and approve our desire to have their ability to produce ore tested. Allen G. Campbell, a wealthy citizen of Salt Lake, located in the mines of Southern Nevada and California, and one of the movers in the new railroad company lately organized in Salt Lake to build to Los Angeles, is keeping a force of men at work on one or more of his mining districts distant from the terminus of the railroad, extending to show his ability and disposition to furnish traffic to the California Eastern road when extended.

Campbell, a wealthy citizen of Salt Lake, located in the mines of Southern Nevada and California, and one of the movers in the new railroad company lately organized in Salt Lake to build to Los Angeles, is keeping a force of men at work on one or more of his mining districts distant from the terminus of the railroad, extending to show his ability and disposition to furnish traffic to the California Eastern road when extended.

"H. L. Drew, president of the Farmers' Exchange Bank of the City of Bernardino, who is largely interested in some twenty valuable mines in the Resting Springs district, has personally assured us of his intention to commence work as soon as this company can prove to him that the cost of the work will be such as to make a profit thereon. John Taylor is preparing to commence operations on one or two of his valuable lead mines near Mesquite Valley.

"John Morris of San Francisco, owner of the Potosi mine above the five miles north of the end of our road, lately made arrangements with W. R. Snape of Cripple Creek to work the Potosi mine. Snape last week returned to Colorado to look up certain roads there to prepare them for the commencement of work here. He is an experienced miner and mill man, formerly connected with the Grant works, and has made a great deal of money in the Cripple Creek mines. He has associated with other gentlemen equally competent and of especial experience in the vehicle.

asadena Yesterday.

MT. LOWE.

ECHO MOUNTAIN, May 3.—(Regular Correspondence.) Dr. Charles A. Darling of New York city passed the Sabbath on Mt. Lowe.

Among the guests from San Francisco were J. H. Kirkpatrick, Arthur Kidd and W. D. Dimale.

Judge W. P. Gardner of Los Angeles was an over-Sunday visitor at the Echo Mountain House.

The large number of people now coming to Mt. Lowe, who register from eastern points, shows that the tide of travel is largely from the East, and as the heated term drives denizens of the cities in the Mississippi Valley from their homes, they will come here in larger numbers before long.

The Alpine Tavern and Echo Mountain House are popular places for over-Sunday outings among Los Angeles business men.

H. W. Hellman of the Farmers' and Merchants' Bank is a frequent visitor to Mt. Lowe, and their two daughters are stopping at Echo Mountain, and he and son, Master Irving, came up to pass the Sabbath with them.

George E. Warner of the Southern Pacific Railroad is enjoying the sights from Inspiration Point and the higher altitudes today.

Gen. Thompson and his brother, Col.

Thompson, who were here yesterday, were very enthusiastic over what they saw, and the general was suffering

from a bad attack of asthma when he came up, and he found the climate of Echo Mountain just what he desired.

He is making a study of electric railroads in reference to the increasing

of capital, and regards the Hudson

River as a particularly favorable

enterprise, not only for its present car-

rying capacity, but because of the cer-

tainty of increase in the future.

Among today's arrivals are the fol-

lowing-named: J. C. Kirkpatrick, Rev. A. Smith, Mrs. E. Hart, Mrs. Mary E. Hart, Mrs. Annie B. Andrews, Miss M. A. Henderson, Charles E. Bur-

rell and wife, John R. Norton and wife, Miss Amy F. Norton, Miss Mary T. Norton, C. G. Blilke and wife, J. B. Hart, Walter Johnson, W. D. Larabe and wife, C. A. Warner, J. Hall, Mrs. L. A. Rich, George Francis, Nellie Lowby, Esther Lowby, Los Angeles; J. H. Kirkpatrick, Arthur Kidd, W. D. Dimale, Peter E. Muller, Mrs. Muller, Hartwick Thorpe, E. Carlson Thorpe, Pacific Beach; Mrs. Charles P. Loughridge, Nevada City; L. O. Poulois, Leipzig, Germany; Mrs. C. L. Weber, A. M. Stoltz, St. Paul; M. A. Tarrant, Honolulu; Robert McNeil, Alberto Henrich, Anna McHenry, Modesto, John C. Klein, New York; Mrs. M. Spangler, Chicago; Dr. Charles A. Darling, New York; S. H. Pierce, Buffalo, N. Y.; D. Bush, H. W. Hellman, Irving H. Hellman, Los Angeles.

SOLDIERS' HOME.

The Choral Club Getting Ready for Business.

SOLDIERS' HOME, May 3.—(Regular Correspondence.) The organization of a choral society has been nearly completed. Another meeting was held last Monday evening at which time twenty-five names were enrolled as members.

A committee was appointed to prepare

and submit a bill of by-laws for the

society, the members of the committee

being J. H. Young, C. F. West, S. L. Beach, J. D. Bothwell and J. Dills. The

official name of the organization has

not yet been decided upon, but it is be-

lieved it will be the "Union Cavalry

Society," and meetings will be held Mon-

day evening to elect officers and per-

fect organization. Music for use of the

club has arrived, having been obtained

from Chicago through a Los Angeles

agent, and created such a racket that he was

arrested for disturbing the peace and

being released on his own recognition,

was cited to appear Monday morning.

The Salvationists visited the office of

Major Hartwell Saturday afternoon to

secure permits for Saturday night and

Sunday afternoon and evening, but the

Major refused to grant the permit on

Saturday night, for the street was

generally crowded with vehicles and

he considered it unsafe to grant it. He did grant the Salvationists permission to parade Sunday afternoon and evening with music. Capt. Findley and created such a racket that he was

arrested for disturbing the peace and

being released on his own recognition,

was cited to appear Monday morning.

SOUTHERN CALIFORNIA NEWS

ORANGE COUNTY.

A NEGRO HIGH-FLYER RUN DOWN IN SANTA ANA.

Los Angeles Wins the Joint Debate and Hawaii Will Not Yet be Annexed—Delightful Dinner Party and Toasts—News Notes.

SANTA ANA. May 3.—(Regular Correspondence.) If the stories that are being freely told by the parties interested are to be relied upon at all, Alex Toppins, a negro who has been making himself quite numerous in this county the past ten days, deserves to be occupying a prison cell.

Toppins married a young negro girl, Maggie McCoy, in Los Angeles about four years ago, soon after which they moved to Fullerton, this county. He lived with her only a few months, until the state goes, his deserted her.

Mr. and Mrs. J. M. Montgomery and daughter, Mrs. Guthridge of Columbus, O., are in Orange, visiting Mr. and Mrs. S. M. Craddick. The visitors may decide to remain permanently in California.

SANTA BARBARA COUNTY.

Extensive Improvements Being Made in Telephone Service.

SANTA BARBARA. May 3.—(Regular Correspondence.) Talking by wire has been satisfactory in Santa Barbara, and collection day at the Sunset Telephone Company has never been back talk enough to make the collectors want to leave town. The cause of all this trouble and dissatisfaction is, the local system is old-style and inadequate. Poles are out of plumb, or down, and wires are slack and frequently crossed. They have not been run far enough to reach the city, and the regular flow of talk to pass and down the coast without congesting here. People were disgusted and the company G. M. was compelled to close the company for nine years, was sent here two months ago to superintend this division and he at once began a systematic investigation. After determining in his mind what he could do to help him, he sent for General Superintendent John Lawrence; his assistant, Mr. Hinckle, and others, who came and went over the ground with Mr. Mead and decided at once to make radical changes.

The entire local system will be rebuilt and a part of the necessary material is now on the wharf. A central office and switch service, strictly up-to-date, and equal to the needs of the city, will be put in. More than \$50,000 will be spent within the next few weeks in making these local changes. More help will be employed in the office. Thirty men are now on the way to the coast to help in the work of reconstruction.

General Lawrence left here yesterday, well pleased with the arrangements that still further improvements and developments will be made in this section in the near future.

SANTA BARBARA BREVIETIES.

Some Santa Barbara Republicans say it looks like McKinley will not break his record, even this time; they say the paper published in McKinley's own district, when announcing the fact that he had never been balloted for by any convention, but was always elected by acclamation, might have added, "and he always will be."

Santa Barbara boys scooped everything in sight at Ventura Friday and don't feel a bit sore over it.

Channel City Lodge, I.O.O.F., had a big benefit night in the form of a reception and banquet. A grand time is reported.

The following Raymond excursion party arrived at the Arlington Saturday:

R. Carey, W. Pilgrim, Jr., Miss G. S. Carey, F. E. Garden, Miss M. Silabec, F. M. Twitchell, Mrs. E. Swift, Dr. C. C. Bombaugh

Mrs. R. Haley, Mrs. Bombaugh, Mrs. G. H. Hough, Mrs. C. Bombaugh, Mrs. J. C. Chisholm, Mrs. C. H. Hough, Mrs. Chisholm, A. F. Kleckner, P. S. Reeves, Mrs. McFadden, Mrs. A. Kimberly, C. R. Wallace

Reception at San Marcos Hotel, Mr. and Mrs. F. M. Torgeson, Mrs. Anna Hawkins, W. R. Hawkins, Kalamazoo, Mich.; L. Spader and son, Ojal; Mrs. and Mrs. R. H. Plummer, San Francisco.

A delegation of drawn jurors arrived from the northern part of the county this evening and are quartered at the New Morris House. They report crop prospects good in the Santa Maria Valley.

District No. 1 of the Santa Barbara County Sunday-School Association held its annual session at Lompoc during the past week.

The officers for the past year were re-elected: Rev. J. M. Smith, president; Rev. S. S. Pattison, secretary and Rev. J. W. Kelsey, treasurer.

Capt. D. W. Thompson, with his steamer Santa Rosa for San José, where he will take part in their floral parade.

The Gurney Cab Company will commence work Monday on a large new barn on De la Guerra street, which will be the company's headquarters as soon as completed.

The twenty-third anniversary of the Santa Barbara Chinese mission will be celebrated at the Congregational Church tonight. A lengthy programme

of preliminary steps toward world-wide expansion of the Y.M.C.A. of this place were taken at the meeting.

The regular monthly meeting of the Horticultural Society of this county will occur on Wednesday next at Sycamore Cafon, Montecito.

The amount of freight landed at the wharf by every steamer indicates a lively trade in general merchandise.

Several months ago a certain "Dr." Campbell was arrested in this city on a charge of practicing medicine without a license. The man had a partner named T. F. Campbell, also an alleged physician. The latter, T. F. Campbell, about two months and a half ago, left Los Angeles in a great hurry. It is reported that he has just bobbed up in San Francisco in a very unenviable light. The San Francisco Call of last Friday contains the following paragraph about a man answering his description:

"The amount of freight landed at the wharf by every steamer indicates a lively trade in general merchandise."

Highest of all in Leavening Power.—Latest U.S. Gov't Report
Royal Baking Powder
 ABSOLUTELY PURE

FUEL OIL ADVANCING.

THE OIL EXCHANGE MAY QUOTE
 ONE DOLLAR TODAY.

A General Review of Market Conditions and Remarkable Increase in Storage Tankage—Progress of Drilling and Oil Development in the Los Angeles District.

The situation in the local oil field continues to grow more encouraging. The market has expanded rapidly during the past few months, and there is a strong demand for all the oil that can be produced in the Los Angeles district. While there is considerable activity among drillers, it is of a most conservative character. Prices have advanced steadily from \$3 and 40 cents to \$8 and 50 cents per barrel yet while more than forty drilling rigs were in operation at the former depressed prices, not more than fifteen are actively employed at the present time, and prices.

There are several causes for this state of affairs, but the principal one seems to be the very general impression that the limits of oil stratum have been reached. A secondary cause was the enforced financial embarrassment of many operators under former ruinous prices.

The oil producers are making a desperate effort to "play even," and no one seems to have the temerity to "wildcat" outside the pretty well-established oil depositories.

A meeting of the Executive Committee was directed by the Oil Exchange will be held today, and it is not improbable that the price of oil will be advanced to \$1 per barrel. This is not guess-work. Such action was suggested to a Times reporter Saturday by a number of leading producers and exchange men.

Oil production in the Los Angeles district has passed beyond the chrysalis stage. Four months ago there was little tankage in the city outside of the oil wells in the field, and there all fall. As a consequence of this condition, and the limited state of the market, "What shall we do with our oil?" was a serious question. But the demand for cheap fuel in the engineering, stationary engines, public and private heating of buildings, lubricating oils, etc., etc., caused progressive men to erect tanks so that a supply could be held in storage for emergencies. This has led to a remarkable increase in the oil storage-tankage of over 300,000 barrels, of which 180,000 barrels are steel or iron tankage, as follows: Standard Oil Company, 55,000; Pacific Oil Company, 40,000; 40,000 Producers' Oil Company, 40,000; Union Oil Company, 35,000; B. and O. Refining Company, \$10,000. The remaining 120,000 barrels is wooden tankage, but by some巧妙 the tank is almost full. Among the many questions frequently asked is "How much oil is stored in the well tanks of the district?" The quantity is known positively, and the Oil Exchange is in position to keep the information up to date exact information. But the following statement was made to a Times representative Saturday: "You may state positively that there are considerably less than 40,000 barrels in the field."

Each tank is expected to contain about 40,000 barrels. Each tank is expected to contain about 40,000 barrels. Each tank is expected to contain about 40,000 barrels.
